

# Prepare for the Unprepared

Welcome back your customers and visitors to your workplace, ensuring the safety of the customers, visitors, employees & facilities amidst the new norm with the Dialog VisitorTags solution.

Dialog VisitorTags solution provides a contact traceable visitor management process and vigilant contingency planning that helps your company adhere to the international and national COVID-19 measures effectively and efficiently.

As your company reopens the facilities to the broader public, identifying your visitors is more than just a security threat in today's pandemic. This ideal well-designed, contactless system is crucial for your business as it helps mitigate the risk of spreading viral diseases while offering controlled visitor experience.
